Summary

Pre-major Sophomore at the University of Washington with some lab and programming experience looking for a part time job/internship on or off campus. I'm very passionate about Web App Development, Software Engineering and Computer Science in general. Interested in majoring in Computer Science or Applied Mathematics (Data Science option) at the University of Washington. Experience in working with MATLAB and Java.

Experience

January 2019 - present

University of Washington Facilities, Seattle WA - Central Issue Area Lead

- Checkout locks, lockers and equipment to UW Intramural Activities Building patrons.
- Manage, train, and coordinate with fellow Central Issue Area employees
- Use and knowledge of the UW recreational program Fusion.
- Customer service and facility operations management.

October 2019

DubHacks 2019, Seattle WA - Fall participant

- Participated in the DubHacks Fall 2019 hackathon at the University of Washington on October 12 - 13.
- Worked with 3 other teammates to create a central non-perishable food donations website where businesses can register and donate extra non-perishable foods in their inventory, and charities and feeding programs can access a database of available foods to claim.
- Gained experience in front and back end web development, as well as React, SQL, JavaScript, HTML, CSS, and Java.
- <https://foodhacks-site.herokuapp.com/> (link to created website)

October 2018 - present

Associated Student Body of the University of Washington - Senator

- Help create, draft, edit, and vote on legislation relating to student opinion and action at UW

- Regularly communicating and working together with other ASUW senators to brainstorm and create new legislation
- ASUW Senate liaison and member of the UW student tech fee committee - a committee which communicates and allocates requested funds to Registered Student Organizations

February 2018 - August 2018

Family Fun Center, Edmonds WA - Ride Attendant, Cook

- Operated and assisted customers with arcade games, rides, and other attractions.
- Cooked, prepped, served, and cleaned up food for customers at the business's restaurant.
- Helped with minor and major projects throughout the business.

February 2016

Sovie, Ghana - Laptop Assistant

- Helped program, package, and transport laptops to the Togbe Agodoo Kitti Memorial Junior Secondary School in Sovie Ghana
- Helped set up Office 365 and Antivirus Software on around 60 laptops

November 2016 - January 2017

Sears Roebuck & Co., Shoreline WA - Seasonal Cashier

- Opened, closed, and managed store cash registers
- Assisted in physical arrangement of products around the store
- Interacted with customers and assisted them with product choices

September 2009 - 2018

St. Andrew's Episcopal Church, Seattle WA - Jubilee Dinner Volunteer

- Set tables for guests
- Prepare meals, including chopping, mixing, baking and cooking
- Serve meals and visit with guests
- Wash dishes

September 2015 - September 2017

St. Andrew's Episcopal Church, Seattle WA - Tech Committee Member

- Regularly updated anti virus, java, windows, and adobe flash player software on organization's computers.
- Completed regular defragmentation and disk cleanup of computer hard drives.

- Helped install and maintain printers, computers, and sound systems when needed.
- Gained proficiency in Windows 10.
